Innovating Our children’s future

Investing in a brighter and sustainable future for South Africa
Our Vision

“To be Africa’s leading Renewable Energy Utility”

Our Methodology....

- To build People Capital under a Board of South African Leaders with integrity and proven International business experience.

- To innovate renewable energy installations to enable Solar Capital to become a world leader in cost effective installation solutions.

- To use our solar developments to build our business in renewable energy solutions.

- To own the development, production, and supply chain into national grids.

“investing in a brighter future”
