## **MEDIA STATEMENT**

### **NERSA Decision on the implementation plan of Eskom's MYPD2 Regulatory Clearing Account**

The National Energy Regulator (NERSA) announced today that it has approved the implementation plan of the Regulatory Clearing Account (RCA) balance of R7,818m for Eskom Holdings SOC Limited ('Eskom'). The RCA balance will be a once-off recovery from the standard tariff customers as well as other Eskom customer categories and will only be implemented in the 2015/16 financial year.

The implementation of the second Multi-Year Price Determination (MYPD2) RCA in 2015/16 will result in an average tariff increase of 12.69% for standard customer tariffs from the 8.00% approved in the MYPD3 decision of February 2013.

On 29 August 2013, Eskom submitted its RCA assessment for the three years of the MYPD2 for consideration by the Energy Regulator. Eskom applied for a cumulative RCA balance of R18,396m. In terms of the provisions of the MYPD Methodology, the Energy Regulator has to, upon application by Eskom, assess certain qualifying allowed revenue and expenditure against actual revenue and expenditure.

The Decision and Reasons for Decision (RfD) document will be available on the NERSA website at [www.nersa.org.za](http://www.nersa.org.za) in due course.

End.
