Bulk Liquid Storage

14. Location of the facility : **Durban**

15. State the licence number (if known) : **PPL.sf.F1/116/2012 (construction Licence.) and PPL.sf.F3/81/1/2006 (Operational Licence)**

SECTION D: DETAILS OF THE APPLICATION

16. Clearly indicate the amendments that you seek. Please indicate each amendment sought separately and provide details thereof. If the amendment is to a particular condition, cite the condition. (Add additional page(s), if necessary).

Vopak Terminal Durban has 8 (eight) tanks, which are currently storing chemicals. Tank numbers are 413, 414, 415, 416, 417, 418 419 and 420. All the above mentioned tanks are 1 500 cbm each, in size. The total capacity is 12 000 cbm. Vopak would need to convert the licensing of these tanks from chemicals to fuels (ULP and diesel).

The above tanks will be added to the already commissioned Fuel 2 infrastructure.

17. Provide detailed reasons and motivation for each of the amendments sought in

16 above (add additional page(s), if necessary): **The contract structure to be signed for these tanks will be on a "Flexible basis". This will allow new and smaller fuel importers access to land tanks (storage) in Durban. We have realized that these players do not need nor afford long term contracts which might tie down their cash, especially when tanks are not filled with the fuel. The targeted customers are the small fuel importers.**

The flexible tanks will be charged purely on a throughput basis. (You use the tanks, you pay. You don't use the tanks, you do not pay.)

The investment cost for this exercise will be insignificant to impact the already submitted tariff application by Vopak to Nersa. (Nersa Ref. No. 2Z2Z1-987-3603)

18. Substantiate your reasons and motivation in 17 above by submitting documentary proof of your claims.

19. Where the amendment sought is an amendment to an existing tariff, information listed in rules 12(7) and 12(8) must also be provided.
